

Official Syllabus CS1V

Institute and Faculty of Actuaries

Subject CS1V - Actuarial Statistics (EV-001)

Syllabus 2026

1. Data exploration and visualisation
 - 1.1 Summarise data using descriptive statistics
 - 1.2 Construct and interpret graphical displays
2. Probability theory
 - 2.1 Apply axioms of probability
 - 2.2 Conditional probability and Bayes theorem
3. Random variables and distributions
 - 3.1 Discrete distributions
 - 3.2 Continuous distributions
4. Statistical inference
 - 4.1 Point estimation
 - 4.2 Hypothesis testing
5. Regression and correlation
 - 5.1 Simple linear regression
 - 5.2 Multiple regression concepts
